# Collection and use of personal information by Edmonton Public Schools

Edmonton Public Schools collects the personal information of students and parents for educational purposes and to protect the safety of students and staff. Consent is not required to gather and share this information.

Below are some **examples** of how and where personal information may be used. This list is not intended to be all-inclusive:

- use of student's name and related contact information for absenteeism verification;
- use of student's name or image in articles, photos or videos in the school calendar, newsletter, yearbook or an internal website such as SchoolZone;
- the taking and use of individual, class, team, club or school videos and photos within the school for internal school purposes;
- use of student's name on artwork or other material to be displayed at the school or another Edmonton Public Schools' site;
- use of student's name on lists such as honour rolls, scholarships or other awards within the school or school division;
- managing and validating school passwords and email accounts;
- sharing information with Alberta Education.

In accordance with the *Freedom of Information and Protection of Privacy (FOIP) Act*, Edmonton Public Schools is authorized and **required** under the provisions of the *Education Act* and its regulations to collect, use and disclose personal information necessary to provide an educational program and ensure a safe and secure school environment for students.

Edmonton Public Schools uses G Suite for Education as its communication platform, so students and staff can communicate and collaborate online. G Suite Apps include Gmail, Google Meet, Docs, and Sheets. Records and files created in G Suite are stored on servers located outside of Canada and subject to foreign laws.

Edmonton Public Schools uses monitoring and filtering software when students are logged into their school accounts during school hours to ensure that each student and staff member is provided with a welcoming, caring, respectful and safe learning environment that respects diversity and fosters a sense of belonging. Content-filtering software runs whenever a student is using their school account.

Please note: photos or videos of students attending or participating in school activities (e.g., sports events, concerts, cultural programs, clubs, field trips, graduation or other ceremonies) that are open to the general public may be taken by the public-at-large, including the media, without consent. Edmonton Public Schools cannot control or prevent the further distribution or use of these photos, videos, images or other personal information.

If a parent or guardian selects *Yes* on the FOIP Consent Form and returns it to the school, student information may be used by the school or the school division for purposes beyond educational programming and student safety. The school or classroom teacher will keep you informed as to how your child's information may be used outside of school.

Please contact the school principal if you have any questions or concerns regarding the collection or intended uses of this information.

# Media Consent Form

## This form asks if your child can be interviewed, filmed or recorded by media outlets that have been invited to the school.

The District invites media to our schools to help share stories about school events, programs, goodwill initiatives or students. When possible, the school will notify parents when media will be on site.

Media requests are carefully considered by the Communications department and the school principal before being approved. Schools need consent from parents/guardians before allowing media to interview or take photos, video or audio of students at non-public events. This consent is only required if students could be interviewed, videotaped or photographed with their faces clearly shown.

News media reporting may include interviews with students, as well as photographs, video or audio to be shared in newspapers, magazines, radio or television programs, and online posts for websites or social media. The media coverage may be digitally manipulated, published, broadcast, re-broadcast or sold to other media outlets.
